

Young Talent Program- Automation Engineer

Are you a young newly graduated (no more than 12 months)
or final year student in

Automation or Mechatronics Engineering?

Do you have a very good command of English language, and have you had a
study or job experience abroad?

Are you eager to work in a multinational company, with the chance to have
an experience in one of its affiliates all over the world?

If you answered yes to these questions, we are looking for you: a brilliant
newly graduated, who is motivated and willing to participate in our

Young Talents Program

In the role of

Automation Engineer

You will have the chance to improve continuously your competences and to
gain both practical and theoretical experience. You will be guided from a
personal tutor through a cross-functional plan within Research &
Development unit.

At Tetra Pak Packaging Solutions SpA (Modena, Italy) you will find a
multinational and stimulating environment and you will have the chance to
learn updated working methods and enjoy multicultural and structured
surroundings.

**With the Young Talent Program, Tetra Pak will build with you and for
you a training plan and career path** that will include:

- 2 years training and job rotation plan
- Cross-functional experiences with clear deliverables
- International Exposure
- Tutor assigned

As an **Automation Engineer** you will develop, verify, validate and maintain automation solutions according to quality and time.

In this role you will also:

- Research and elaborate complete new architecture automation solution to meet given or created specifications;
- Design automation solutions according to legal demands, corporate standards and product specifications
- Promote ideas and methods to which shall be given patent protections.
- Execute test, validate and document software/hardware applications.

Who are you?

You have a University degree in **Automation or Mechatronics Engineering. Electronics Engineering** will be considered only if Automation subjects were part of the university program.

Experience abroad with a student exchange program or other international experience will be considered as a merit.

As a person you are an entrepreneur and innovator and you have positive attitude. You are a team player, results-oriented and have excellent communications skills. You are able to take initiatives and drive activities independently. You are willing to learn, and you are able to influence others at different levels in the organization. You are a structured and systematic person.

If you are interested, please submit your application on Tetra Pak website:

<https://tetrapak.taleo.net/careersection/2/jobdetail.ftl?job=MOD0000BV>

Male or Female applicants to the position are appreciated.

Only English applications will be considered.

Please submit your application online not later than April, 30th 2016.

The program will start at Modena (Italy) on September 2016.

Tetra Pak is one of the world's leading suppliers of food processing and packaging systems. Together with our customers and suppliers, we help provide safe foods to the consumers of the world.
