

Dear students, have your say on your future career!

We kindly invite you to participate in Europe's largest study on career and education topics! Every year about 950 universities across Europe receive valuable data on their students' satisfaction through the trendence Graduate Barometer. Our university is now participating in the 2016 edition of the study. Around 280,000 students contribute each year to shaping the future education and job environment by sharing their aims and motivations.

Will you contribute as well? Take part in the study here

www.trendence-gradbarometer.eu

and have the chance to win:

5 x € 500 vouchers*

10 x € 200 vouchers*

*Use your BestChoice Europe voucher at more than 70 online stores. You can split your credit over different partner shops and combine several vouchers.

At the end of the questionnaire, the results from last edition wait for you. Based on your answers, employers and universities are being informed on what the new generation wants and you get a free download with useful information on studies and careers.

Your answers will be anonymous and your data will be legally protected.

Your future has a voice!
